LOK SABHA

The following Bill was introduced in Lok Sabha on the 24th December, 1969: --

BILL No 120 of 1969

A Bill to consolidate and amend the law relating to customs duties.

BE it enacted by Parliament in the Twentieth Year of the Republic of India as follows:--

- 1. (1) This Act may be called the Customs Tariff Act, 1969.
- (2) It extends to the whole of India
- (3) It shall come into force on such date as the Central Government may, by notification in the Official Gazette, appoint.

2. The rates at which duties of customs shall be levied under the

Customs Act, 1962, are specified in the First and Second Schedules.

3. (1) Any article which is imported into India shall, in addition, be liable to a duty (hereafter in this section referred to as the additional duty) equal to the excise duty for the time-being leviable on a like article if produced or manufactured in India and if such excise duty on a like article is leviable at any percentage of its value, the additional duty to which the imported article shall be so liable shall be calculated at that percentage of the value of the imported article.

Explanation.—In this section, the expression "the excise duty for the time being leviable on a like article if produced or manufactured in India" means the excise duty for the time being in force which would be leviable

on a like article if produced or manufactured in India or, if a like article is not so produced or manufactured, which would be leviable on the class or description of articles to which the imported article belongs, and where such duty is leviable at different rates, the highest duty.

(2) For the purpose of calculating under this section the additional duty on any imported article, where such duty is leviable at any percentage of its value, the value of the imported article shall, notwithstanding anything contained in section 14 of the Customs Act, 1962, be the aggregate of—

52 of 1962.

- (i) the value of the imported article determined under subsection (1) of the said section 14 or the tariff value of such article fixed under sub-section (2) of that section, as the case may be; and
- (ii) any duty of customs chargeable on that article under section 12 of the Customs Act, 1962, and any sum chargeable on that article under any law for the time being in force as an addition to, and in the same manner as, a duty of customs, but not including the duty referred to in sub-section (1).

52 of 1962.

- (3) If the Central Government is satisfied that it is necessary in the public interest to levy on any imported article [whether on such article duty is leviable under sub-section (1) or not], such additional duty as would counterbalance the excise duty leviable on any raw materials, components and ingredients of the same nature as, or similar to those, used in the production or manufacture of such article, it may, by notification in the Official Gazette, direct that such imported article shall, in addition, be liable to an additional duty representing such portion of the excise duty leviable on such raw materials, components and ingredients as, in either case, may be determined by rules made by the Central Government in this behalf.
- (4) In making any rules for the purposes of sub-section (3), the Central Government shall have regard to the average quantum of the excise duty payable on the raw materials, components or ingredients used in the production or manufacture of such like article.
- (5) The duty chargeable under this section shall be in addition to any other duty imposed under this Act or under any other law for the time being in force.
- (6) The provisions of the Customs Act, 1962, and the rules and regulations made thereunder, including those relating to drawbacks, refunds and exemption from duties, shall, so far as may be, apply to the duty chargeable under this section as they apply in relation to the duties leviable under that Act.

52 of 1962.

4. (1) Where in respect of any article a preferential rate of revenue duty is specified in the First Schedule, or is admissible by virtue of a notification under section 25 of the Customs Act, 1962, the duty to be levied and collected shall be at the standard rate, unless the owner of the article claims at the time of importation that it is chargeable with a preferential rate of duty, being the produce or manufacture of the United Kingdom or of such other preferential area as is notified under sub-section (3) and the article is determined, in accordance with the rules made under sub-section (2), to be such produce or manufacture.

52 of 1962.

Levy of duty where standard rate and preferential rate are specified.

- (2) The Central Government may, by notification in the Official Gazette, make rules for determining if any article is the produce or manufacture of the United Kingdom or of any other preferential area.
- (3) For the purposes of this section and the First Schedule, "United Kingdom" means the United Kingdom of Great Britain and Northern Ireland and "other preferential area" means any country or territory which the Central Government may, by notification in the Official Gazette, declare to be such area with a view to implementing the United Kingdom—India Trade Agreement of 1939 or continuing the preferential treatment originally admissible under that Agreement.
- (4) Every notification issued under sub-section (3) shall, as soon as may be after it is issued, be laid before each House of Parliament.
- 5. (I) Where under a trade agreement between the Government of India and the Government of a foreign country or territory, duty at a rate lower than that specified in the First Schedule is to be charged on articles which are the produce or manufacture of such foreign country or territory, the Central Government may, by notification in the Official Gazette, make rules for determining if any article is the produce or manufacture of such foreign country or territory and for requiring the owner to make a claim at the time of importation, supported by such evidence as may be prescribed in the said rules, for assessment at the appropriate lower rate under such agreement.

Levy of a lower rate of duty under a trade agreement.

- (2) If any question arises whether any trade agreement applies to any country or territory, or whether it has ceased to apply to India or any foreign country or territory, it shall be referred to the Central Government for decision and the decision of the Central Government shall be final and shall not be liable to be questioned in any court of law.
- 6. (1) Where the Central Government, upon a recommendation made to it in this behalf by the Tariff Commission established under the Tariff Commission Act, 1951, is satisfied that circumstances exist which render it necessary to take immediate action to provide for the protection of the interests of any industry established in India, the Central Government may, by notification in the Official Gazette, impose on any goods imported into India in respect of which the said recommendation is made, a duty of customs of such amount, not exceeding the amount proposed in the said recommendation, as it thinks fit.

Power of Central Government to levy protective duties in certain cases.

- (2) Every duty imposed on any goods under sub-section (1) shall, for the purposes of this Act, be deemed to have been specified in the First Schedule as the duty leviable in respect of such goods.
- (3) Where a notification has been issued under sub-section (1), the Central Government shall, unless the notification is in the meantime rescinded, have a Bill introduced in Parliament, as soon as may be, but in any case during the next session of Parliament following the date of the issue of the notification to give effect to the proposals in regard to the continuance of a protective duty of customs on the goods to which the notification relates, and the notification shall cease to have effect when such Bill becomes law, whether with or without modifications, but without prejudice to the validity of anything previously done thereunder:

Provided that if the notification under sub-section (1) is issued when

50 of 1951.

Parliament is in session, such a Bill shall be introduced in Parliament during that session:

Provided further that where for any reason a Bill as aforesaid does not become law within six months from the date of its introduction in Parliament, the notification shall cease to have effect on the expiration of the said period of six months, but without prejudice to the validity of anything previously done thereunder.

Duration of protective duties and power of Central Government to alter them.

- 7. (1) When the duty specified in respect of any article in the First Schedule is characterised as protective in column (6) of that Schedule, that duty shall have effect only up to and inclusive of the date, if any, specified in that Schedule.
- (2) Where in respect of any such article the Central Government is satisfied after such inquiry as it thinks necessary that such duty has become ineffective or excessive for the purpose of securing the protection intended to be afforded by it to a similar article manufactured in India and that circumstances exist which render it necessary to take immediate action, it may, by notification in the Official Gazette, increase or reduce such duty to such extent as it thinks necessary.
- (3) Every notification under sub-section (2), in so far as it relates to increase of such duty, shall be laid before each House of Parliament if it is sitting as soon as may be after the issue of the notification, and if it is not sitting, within seven days of its re-assembly, and the Central Government shall seek the approval of Parliament to the notification by a resolution moved within a period of fifteen days beginning with the day on which the notification is so laid before the House of the People and if Parliament makes any modification in the notification or directs that the notification should cease to have effect, the notification shall thereafter have effect only in such modified form or be of no effect, as the case may be, but without prejudice to the validity of anything previously done thereunder.
- (4) For the removal of doubts, it is hereby declared that any notification approved by Parliament, whether with or without modifications, may be rescinded by the Central Government at any time by notification in the Official Gazette.

Emergency power of Central Government to increase or levy export duties.

- 8. (1) Where, in respect of any article, whether included in the Second Schedule or not, the Central Government is satisfied that the export duty leviable thereon should be increased or that an export duty should be levied, and that circumstances exist which render it necessary to take immediate action, the Central Government may, by notification in the Official Gazette, direct an amendment of the Second Schedule to be made so as to provide for an increase in the export duty leviable or, as the case may be, for the levy of an export duty, on that article.
- (2) The provisions of sub-sections (3) and (4) of section 7 shall apply to any notification issued under sub-section (1) as they apply in relation to any notification increasing duty issued under sub-section (2) of section 7.

9. (1) Where any country or territory pays, or bestows, directly or indirectly, any bounty or grant upon the production therein or the exportation therefrom of any article and the article is chargeable with duty under the provisions of this Act, then, upon the importation of any such article into India, whether the same is imported directly from the country

of production or otherwise, and whether it is imported in the same condition as when exported from the country of production or has been changed in condition by manufacture or otherwise, the Central Government may, by notification in the Official Gazette, impose an additional duty equal to the net amount of such bounty or grant.

- (2) The net amount of any such bounty or grant as aforesaid shall, from time to time, be ascertained, determined and declared by the Central Government, after such inquiry as it may consider necessary and the Central Government may, by notification in the Official Gazette, make rules for the identification of such articles and for the assessment and collection of any additional duty imposed upon the importation thereof under sub-section (1).
- (3) Every notification issued under sub-section (1) shall, as soon as may be after it is issued, be laid before each House of Parliament.
- 10. Every rule made under this Act shall be laid, as soon as may be after it is made, before each House of Parliament while it is in session for a total period of thirty days which may be comprised in one session or in two successive sessions, and if, before the expiry of the session in which it is so laid or the session immediately following, both Houses agree in making any modification in the rule or both Houses agree that the rule should not be made, the rule shall thereafter have effect only in such modified form or be of no effect, as the case may be; so, however, that any such modification or annulment shall be without prejudice to the validity of anything previously done under that rule.

Rules to be laid before Parliament.

11. (1) Where the Central Government is satisfied that it is necessary so to do for the purpose of giving effect to any agreement entered into before the commencement of this Act with a foreign Government, it may, by notification in the Official Gazette, increase or reduce the duties referred to in section 2 to such extent as each case may require:

Power of Central Government to alter duties under certain circumstances.

Provided that no notification under this sub-section increasing or reducing the duties as aforesaid shall be issued by the Central Government after the expiration of a period of one year from the commencement of this Act.

- (2) Every notification issued under sub-section (1) shall, as soon as may be after it is issued, be laid before each House of Parliament.
- 12. (1) The Indian Tariff Act, 1934, and the Indian Tariff (Amendment) Act, 1949, are hereby repealed.

- (2) Notwithstanding the repeal of any of the Acts mentioned in subsection (1), anything done or any action taken (including any notification published and any rules and orders made or deemed to have been made under the provisions of those Acts and in force immediately before the commencement of this Act) shall, in so far as such thing or action is not inconsistent with the provisions of this Act, be deemed to have been done or taken under the provisions of this Act and shall continue in force accordingly until superseded by anything done or any action taken under this Act.
- 13. In the Customs Act, 1962, in sub-section (1) of section 12 and in sub-section (1) of section 14, for the words and figures "Indian Tariff Act, 1934", the words and figures "Customs Tariff Act, 1969" shall be substituted.

 - (1) hand sieves (Chapter 96);
- (m) articles falling within Chapter 97 (toys, games and sports requisites); or
- (n) buttons, pens, pencil-holders, pen nibs or other articles falling within Chapter 98.
- 2. Throughout this Schedule, "parts of general use" means;
- (a) goods described in Headings Nos. 73·20, 73·25, 73·26, 73·29, 73·31 and 73.32 and similar goods of other base metals;
- (b) springs and leaves for springs, of base metal, other than clock and watch springs (Chapter 91); and
 - (c) goods described in Sub-heading No. 83.01/15(1).

In Chapters 73 to 82, parts of general use as defined above will be classified under the above mentioned Headings or Sub-headings and not under the Headings applicable to the complete article of which they may be parts. This does not, however, apply to specialised parts of chains of iron or steel or copper.

Subject to the preceding paragraph and the Note to Chapter 83, the Headings in Chapters 73 to 81 are to be taken not to apply to any goods falling within Chapter 82 or 83.

3. Classification of alloys:

- (a) an alloy of base metals containing more than 10 per cent, by weight of nickel is to be classified as an alloy of nickel, except in the case of an alloy in which iron predominates by weight over each of the other metals;
- (b) ferro-alloys and master alloys (as defined in Chapters 73 and 74) are to be classified under Headings Nos. 73.02 and 74.01/02, respectively;
- (c) any other alloy of base metals is to be classified as an alloy of the metal which predominates by weight over each of the other metals;
- (d) an alloy, not being a ferro-alloy or a master alloy, composed of base metals of this Section and of clements not falling within this Section is to be

treated as an alloy of base metals of this Section if the total weight of such metals equals or exceeds the total weight of the other elements present;

- (e) in this Section, "alloy" is to be taken to include sintered mixtures of metal powders and heterogeneous intimate mixtures obtained by melting.
- 4. Unless the context otherwise requires, any reference in this Schedule to a base metal is to be taken to include a reference to alloys which, by virtue of Note 3 above, are to be classified as alloys of that metal.
 - 5. Classification of composite articles:

except where the Headings otherwise require, articles of base metal (including articles of mixed materials treated as articles of base metal under the Interpretative Rules) containing two or more base metals are to be treated as articles of the base metal predominating by weight. For this rurpose:

- (a) iron and steel, or different kinds of iron or steel, are regarded as one and the same metal, and
- (b) an alloy is regarded as being entirely composed of that metal as an alloy of which, by virtue of Note 3, it is classified.
- 6. For the purposes of this Section, "waste and scrap" means waste and acrap metal fit only for the recovery of metal or for use in the manufacture of chemicals.

more than 2 per cent. of manganese and silicon, taken together, or

- 2.00 per cent. or more of manganese, or

STATEMENT OF OBJECTS AND REASONS

The rates of customs duties on goods imported into or exported from India are specified in the Schedules to the Indian Tariff Act, which was enacted as long ago as in 1934. The substantive provisions of this Act have been amended on several occasions, and its two Schedules have been amended even more frequently. With the implementation of successive Five Year Plans, the progress made in industrial growth and economic development, and the substantial changes in the composition and pattern of India's external trade, the need has been increasingly felt in recent years for a revision of the Indian Customs Tariff Nomenclature in order to bring it in line with contemporary conditions. The present Indian Customs Tariff is based on the Draft League of Nations Nomenclature of 1931. A large number of countries and territories of the world have now based their tariffs on a more recent international pattern known as the Brussels Tariff Nomenclature.

- 2. The Indian Tariff (Amendment) Act, 1949 was enacted for the purpose of giving effect to the tariff concessions agreed to by India under the General Agreement on Tariffs and Trade (GATT). This was framed as a temporary Act, some provisions of which have to be extended from year to year. The existence of this as a separate enactment has been found to give rise to practical difficulties. Further, it has been found more convenient to give effect to the GATT concessions (which are deemed to be of a temporary character) through exemption notifications under the Customs Act, 1962, rather than by amending the statutory Tariff.
- 3. The Tariff Revision Committee, which was set up by Government to conduct a comprehensive enquiry into the structure of the Indian Customs Tariff and recommend the lines for its improvement and revision, had suggested that the Import Tariff Schedule should be revised and based broadly on the Brussels Tariff Nomenclature, making such contractions or expansions thereto as were necessary to suit the needs of India. The Committee had also suggested certain changes, mostly of a drafting character, to the substantive provisions of the Tariff Act and to the Export Tariff.
- 4. Government have agreed that the Tariff Nomenclature and the provisions of the Indian Tariff Act, 1934 and the Indian Tariff (Amendment) Act, 1949, need to be revised on the lines recommended by the Committee. They accordingly consider it necessary to have a new enactment which will consolidate and replace the two Acts mentioned above. The main features of the Bill are as under:—
 - (i) The substantive provisions of the Bill are as in the Indian Tariff Act, 1934, with some minor changes arising mainly out of the recommendations of the Tariff Revision Committee.

- (ii) In the Import Tariff (the First Schedule) the description of articles is based on the Brussels Tariff Nomenclature. In regard to rates of duty, the First Schedule seeks to preserve the existing duty structure and also the preferences under the United Kingdom-India Trade Agreement of 1939. As in the present Schedule, the effective rates of duty in certain cases (as for instance on GATT items) would be provided through exemption notifications under the Customs Act, 1962.
- (iii) The Export Tariff (the Second Schedule) is the same as the existing Schedule but items and rates of duty which are no longer effective have been omitted and the remaining items have been arranged on the pattern of the Brussels Tariff Nomenclature.
- 5. The notes on clauses explain the provisions of the Bill.

NEW DELHI;

B. R. BHAGAT.

The 1st December, 1969.

PRESIDENT'S RECOMMENDATION UNDER ARTICLE 117 OF THE CONSTITUTION OF INDIA

[Copy of letter No. 56 (3)-Tar 69-I, dated the 10th December, 1969 from Shri Bali Ram Bhagat, Minister of Foreign Trade to the Secretary, Lok Sabha.]

The President, having been informed of the subject matter of the Customs Tariff Bill, 1969, recommends under clauses (1) and (3) of article 117 of the Constitution of India, the introduction of the Bill in, and the consideration of the Bill by, the Lok Sabha.

Notes on clauses

Clause 2 corresponds to section 2 of the Indian Tariff Act, 1934 (hereafter referred to as "the existing Act") and provides that the rates at which duties of customs shall be levied under the Customs Act, 1962, shall be specified in the First and Second Schedules to the Bill.

The First Schedule specifies the rates of import duty and is in replacement of the First Schedule to the existing Act. The Schedule is broadly based on the Brussels Tariff Nomenclature, but the individual headings of that nomenclature have been either merged or sub-divided to accord with the pattern of India's import trade. As with the Schedule to the existing Act, the statutory rates of duty shown in this Schedule have to be read with exemption notifications issued under the Customs Act, 1962, giving effect to temporary duty reductions in respect of particular articles.

The columns of the Schedule are broadly as in the First Schedule to the existing Act. However, the third column in the existing Schedule, headed "Nature of duty" has been omitted, as it is found to be redundant. The headings of the other columns have been revised in order to make them more precise.

The Second Schedule specifies the rates of export duty and is in replacement of the Second Schedule to the existing Act. The existing Schedule has been rationalised by (a) omitting items on which export duty has been removed by exemption notifications, and which are thus no longer effective; (b) omitting the heading relating to mercury, which has not been exported for the last several years; (c) showing the maximum effective rate of duty on headings where the duty has been reduced by notification; and (d) arranging the entries in the order found in the Brussels Tariff Nomenclature.

In specifying the rates of duty in the Schedules, every effort has been made to see that there is no change in the rate of duty on particular commodities. In certain cases, an entry includes one or two articles which at present bear a lower rate of duty than that shown against the entry. This is the case, for instance, on commodities on which a lower rate of duty is levied by virtue of the General Agreement on Tariffs and Trade (GATT). Since it would not be practicable to have separate headings for commodities of negligible importance in import or export trade, the appropriate rates of duty will, in the case of such commodities, be regulated through a notification under section 25 of the Customs Act, 1962.

Clause 3 provides for the levy of additional duty on an imported article to counterbalance the excise duty leviable on the like article made indigenously, or on the indigenous raw materials, components or ingredients which go into the making of the like indigenous article. This provision corresponds to section 2A of the existing Act, and is necessary to safeguard the interests of the manufacturers in India.

Clause 4 makes provisions in regard to the eligibility for assessment of imported articles at preferential rates of duty in accordance with the provisions of the United Kingdom-India Trade Agreement of 1939. It corresponds to section 3 of the existing Act. The clause introduces the term "other preferential areas" to cover the erstwhile British Colonies, now independent, to which preferential treatment continues to be accorded. The provision in the existing Act for cases where a certificate of origin is not produced at the time of importation has been omitted, as such cases are covered by sections 18, 27 and 28 of the Customs Act, 1962, relating to provisional assessment, refunds, etc. The clause has also been amplified to cover goods on which a preferential rate of duty is admissible by virtue of a notification.

Clause 5, sub-clause (1) is a new provision on the analogy of section 3 of the existing Act (cf. clause 4 above). This sub-clause seeks to enable Government to make rules specifying the conditions for concessional assessment under trade agreements such as the GATT and the Tripartite Agreement, as a result of which duty concessions are generally provided for by notification. This provision is being made sufficiently flexible to permit rules of varying nature, depending on the nature of the agreement.

Sub-clause (2) lays down that the decision of the Central Government as to whether any trade agreement applies or has ceased to apply to any country or territory shall be final. This corresponds to section 8 of the Indian Tariff (Amendment) Act, 1949.

Clause 6 empowers the Central Government, on the basis of a recommendation by the Tariff Commission, to impose a protective duty on any imported goods. It also makes provision for a Bill to be introduced subsequently in Parliament. This corresponds to section 3A of the existing Act, except that sub-section (2) of that section has been modified to make it clear that the protective duty levied under this section is inclusive of, and not in addition to, the duty already specified in the First Schedule.

Clause 7, sub-clause (1) lays down that a protective duty shall have effect only up to and inclusive of the date specified in the First Schedule. This corresponds to section 11(1) of the existing Act.

Sub-clauses (2) to (4) empower Government to modify the rate of duty on a protected article and to obtain the subsequent approval of Parliament to such modification. This provision broadly corresponds to section 4 of the existing Act. The provision in sub-clause (3) for obtaining Parliament approval is new, as there is no such provision in the existing Act.

The clause thus incorporates parts of sections 4 and 11 of the existing Act. The remaining provisions of these two sections, which have become redundant, have been omitted. Out of the present section 4, the proviso to sub-section (1), governing cases where there may be different protective rates for British and non-British goods, has been found unnecessary in practice and is therefore being omitted. Sub-sections (2) and (3), making special provisions regarding the duty on cotton fabrics of British manufacture, have also become ineffective and have been omitted. Similarly, sub-sections (2) and (3) of existing section 11, relating to the

duty on wheat and wheat flour, have become obsolete and have been omitted.

Clause 8 makes provision for the emergency power of the Central Government to increase or levy export duties on specified articles. This clause corresponds to section 4A of the existing Act.

Clause 9 seeks to empower the Central Government to impose an additional import duty on bountyfed articles. This clause corresponds to section 8 of the existing Act, with the addition that in determining the amount of bounty available to the foreign exporters, the Central Government may have such inquiry made as it may consider necessary.

Clause 10 makes provision for laying before Parliament rules made under the Act. This corresponds to section 11A of the existing Act, with modifications to make it accord with recent practice.

Clause 11 is a transitory provision to ensure a smooth change to the revised nomenclature and to ensure that Government's international commitments are honoured. While every effort has been made to ensure that the revision of the nomenclature does not result in a change in the rate of duty on any article, or in the reduction of an existing tariff preference or the creation of a new preference, the possibility cannot be overlooked that some unintentional departures, which might be at variance with a trade agreement such as the GATT or the United Kingdom-India Trade Agreement, may come to notice. This provision would enable Government to take prompt corrective action in such cases, without the need for separate legislation. The provision will be in force for a period of one year after the coming into force of the Act. This would allow sufficient time for any unintentional departures to be rectified.

Clause 12 is a repealing clause with a provision for saving the existing rules, notifications, etc, which are not inconsistent with the provisions of the Bill.

Clause 13 seeks to amend sections 12 and 14 of the Customs Act, 1962, and is consequential on the replacement of the existing Act by a new Act.

FINANCIAL MEMORANDUM

The effect of clause 2 of the Bill will be the replacement of the existing Customs Import Tariff Schedule by a revised Schedule. The revised Schedule is based on the International Nomenclature known as the Brussels Tariff Nomenclature. While the present duty structure is being maintained, the arrangement and the wording of the headings in the revised Schedule will differ very considerably from that in the existing Schedule.

- 2. The new Schedule would have to be administered by the Customs Department under the Ministry of Finance (Department of Revenue and Insurance). This would involve some additional work in the Customs formations, in advising the public on various matters relating to the revised Schedule. In order to handle this extra work, the Public Relations Offices in the Collectorates at Bombay, Calcutta, Madras, Cochin, Delhi and Baroda would each need augmentation by one appraiser and one typist. There is also expected to be some increased work in the Ministry of Finance (Department of Revenue and Insurance) in dealing with references arising out of the new tariff. Provision is being made for a post of Senior Analyst with a Stenographer for this purpose.
- 3. One of the advantages of basing the Customs Tariff on the Brussels Tariff Nomenclature is that there would be uniformity in the classification of the same article in different countries using that nomenclature. However, in order to ensure that there is such uniformity, it would be necessary to keep in touch with the central organisation responsible for the nomenclature, namely the Customs Co-operation Council, and to subscribe for the explanatory notes and other literature published by that organisation in connection with the nomenclature.
- 4. Consequent on the present Bill becoming law, it will be necessary for the Director-General of Commercial Intelligence and Statistics under the Ministry of Foreign Trade to bring out a fresh issue of the "Customs Tariff" rearranged in accordance with the revised classification. This publication is essential for the day-to-day use of the public and officials concerned with customs duties. A considerable amount of work would be involved in compiling this revised issue, and this would necessitate the employment of some staff in the office of the Director-General of Commercial Intelligence and Statistics for a period of about four months.
- 5. The Bill, if enacted and brought into operation, would involve additional expenditure towards staff in the Ministry of Finance (Department of Revenue and Insurance), in the Collectorates under that Ministry, and in the Department of Commercial Intelligence and Statistics and also towards the purchase of publications of the Customs Co-operation Council. Some items of miscellaneous and contingent expenditure can also be expected. The additional expenditure will be approximately

Rs. 40,220 (non-recurring) and Rs. 1,05,000 per annum (recurring), as shown below:—

A .- Non-recurring expenditure:

MEMORANDUM REGARDING DELEGATED LEGISLATION

Sub-clause (3) of clause 3 enables the Central Government to make rules for determining the additional duty leviable on an imported article, such duty being on account of the excise duty leviable on raw materials, components or ingredients used in the production or manufacture of a like article in India. This follows section 2A(2) of the existing Indian Tariff Act. 1934 (32 of 1934).

- 2. Sub-clause (2) of clause 4 enables the Central Government to make rules for determining if any article is the produce or manufacture of the United Kingdom or of any other preferential area for the purpose of levying a preferential rate of revenue duty. This follows section 3(2) of the existing Act.
- 3. Sub-clause (1) of clause 5 enables the Central Government to make rules for determining the origin of goods for assessment at the lower rate provided for under any trade agreement with a foreign country. This is on the analogy of section 3(2) of the existing Act.
- 4. Sub-clause (2) of clause 9 enables the Central Government to make rules for the identification of bountyfed articles and for the assessment and collection of the additional duty leviable thereon.
- 5. The aforesaid matters in respect of which rules will be made are matters of procedure and detail and it would not be practicable to provide for these in the Bill itself. The delegation of legislative power is thus of a normal character.
